PROFESSIONAL SUMMARY

Senior Software Engineer with over 7 years of recent experience in enterprise solution development, specialized in C#, ASP.NET Core, Angular, SQL Server, Oracle and PostgreSQL. I have worked in Full Stack development, APIs, internal systems, database optimization, production support, electronic invoicing, modernization of legacy systems, and deployment automation with Azure DevOps/GitHub Actions.

I have experience in requirements gathering, technical-functional analysis, incident resolution, code reviews, and mentoring junior profiles. My strongest attribute is building maintainable business-oriented solutions, combining .NET Backend, Angular Frontend, and relational databases. I am currently strengthening complementary skills in Python, FastAPI, Docker, microservices, and applied generative AI.

TECHNICAL SKILLS

Languages: C#, SQL, JavaScript, TypeScript, Python, Java, Visual Basic .NET

Backend: ASP.NET Core, ASP.NET, Web API, REST APIs, Entity Framework Core, Clean Architecture, CQRS with MediatR

Frontend: Angular, TypeScript, HTML5, CSS3, Angular Material

Databases: SQL Server, PostgreSQL, Oracle, T-SQL, PL/SQL, data modeling, query optimization

Cloud/DevOps: Azure App Service, Azure DevOps, CI/CD Pipelines, GitHub Actions, AWS S3, AWS Cloud9, Git, GitHub, Bitbucket

Testing and Quality: xUnit, MSTest, Pytest, SonarQube, Postman, Swagger, Scalar

Tools and methodologies: Scrum, Jira, Trello, Azure DevOps Boards

Enabling technologies: Python with Pandas/FastAPI/Boto3, Docker, microservices, RabbitMQ, MassTransit, React Native, applied generative AI

PROFESSIONAL EXPERIENCE

Freelance Developer | Independent Contractor | April 2023 - Present

- Developing solutions for process automation, system modernization, and improved operational workflows.
 - Implemented a data processing solution with Python, Pandas, and Boto3 for ingestion, validation, and cleaning of CSV files.
 - Advised transition from legacy systems to modern architectures with .NET Core + Angular.
 - Developed proof of concepts with local LLMs for automation of technical documentation.
- Technologies: Python, Pandas, Boto3, ASP.NET Core, SQL Server, AWS, FastAPI, React Native

Support Engineer | La Ofrenda S.A. | April 2022 - April 2023

- Designed and implemented an internal CRM solution in C# and Oracle.
- Optimized SQL queries and operational reports, improving response times.
- Resolved critical production incidents and provided technical support to junior profiles. Technologies: C#, Oracle, SQL, WinForms

Development Engineer | Súperredes S.A.S | June 2019 - April 2022

- Participated in modernizing enterprise solutions with C#, Angular, PostgreSQL, and SQL Server.
- Implemented Clean Architecture in Backend and developed electronic invoicing modules.
- Automated deployments with CI/CD pipelines in Azure.
- Coordinated code reviews, standards, and technical mentoring. Technologies: C#, ASP.NET, Angular, PostgreSQL, SQL Server, AWS Cloud9, Azure App Service, Bitbucket, Git

Junior Programmer | PETI Soluciones Productivas | June 2018 - December 2018

- Developed modules in ASP.NET and SQL Server.
- Participated in requirements analysis, databases, unit testing, and functional validation.

Systems Technician | INDRA | March 2016 - October 2016

- I developed web applications in ASP.NET C# integrated with Oracle.
- I applied static code analysis with SonarQube and supported tracking in Jira.

ADDITIONAL EXPERIENCE

Engineering Assistant | PROSOF | 2015-2016 — Technical documentation, QA, support for CMMI DEV 3, Java training and technical support.

Gloss Assistant | Audifarma S.A. | 2007-2014 — Operational management, process improvement and training. Auditor, Programmer | Fastec | 2006-2007 — Web tools with PHP and PostgreSQL, data analysis and validation. Programmer Engineer | CSA S.A.S. | 2005-2007 — CRM with VB.NET and ASP.NET, SQL Server integration and support.

HIGHLIGHTED PROJECTS

Sales and Billing Management System — ASP.NET Core, Angular, SQL Server, Azure. Full Stack solution with Clean Architecture and JWT.

Data Cleaning ETL Pipeline — Python, Pandas, FastAPI, AWS, GitHub Actions. Ingestion, validation and CSV cleaning automation.

EDUCATION

Software Development Specialist — Universidad Católica de Pereira | 2017

Systems Engineer — UNAD | 2013

CERTIFICATIONS

AI Development: from 0 to Production — Big School | 2026

EF SET English Certificate — CEFR B2 Upper Intermediate | 2025

Scrum Foundation Professional Certificate (SFPC) — CertiProf | 2020

ADDITIONAL TRAINING

Python applied to automation and APIs |Ardit Sulce, Udemy |2026 React Native and mobile development |JavaScript Mastery |2026 Generative AI applied |Microsoft Learn |2026 AI and digital tools |Google Skills |2026

Git and GitHub | Udemy 2024

LANGUAGES

Spanish: Native

English: B2 Upper Intermediate (EF SET 56/100, 2025). Strengths in reading and writing; currently strengthening listening and speaking for professional contexts.
